

EXPONENTIAL LEAP FOR GLOBAL ENERGY PLASMABIT BY GA DRILLING

LIMITS AND CONSTRAINTS OF CURRENT ENERGY MIX

Fossil Fuels

Not truly desirable anymore

Solar, Wind

Dependent on weather and/or daylight
Footprint → large land use and degradation
Not available anywhere → need of transport

Geothermal

Accessible only around geological anomalies

FULLY DEVELOPED PATENTED CORE TECHNOLOGY PLATFORM

Extensive cooperation with industry since 2013

PLASMABIT prototype demonstrated rapid disintegration of any material

Fist application for environmentally sound low cost well P&A developed

Ready for field-test in
4Q 2017

Market proof in
2018

1200 sq. m
Technology Center

80+ employees
Hitech company

1200 sq. m
Testing facilities

€20M+
Financially invested

BENEFITS OF ULTRA DEEP GEOTHERMAL ENERGY ENABLED BY PLASMABIT

THE ONLY TRUE
BASELOAD 24/7

WEATHER
& NIGHT PROOF

NO FUEL,
ZERO EMISSIONS

AVAILABLE
ANYWHERE

GEOTHERMAL PLANT
